Our story actually began centuries ago, when natives of Australia distilled precious oil from the leaves of the Melaleuca Alternifolia tree. A natural organic substance, Tea Tree Oil proved to be extraordinarily effective in healing, soothing, and conditioning skin and hair.

MiracleCorp Products was founded in 1988 with our initial product line known as "Mela Miracle".

In the years since we have expanded our assortment to include a full line of skin and coat care, grooming tools, and healthcare products for dogs, cats, birds, and small animals. All dedicated to enriching the lives of our best friends.

We welcome you to discover your world of Miracles!
