

Stewart[®]
Premium Food and Treats

Exceptional Food for Exceptional Health

A nutritionally complete, delicious diet is the foundation of health and provides an unshakable bond with your pet. Veterinarian founded, in collaboration with concerned pet parents, we have built a heritage of trust by providing nutritionally superior food and treats for dogs, cats and ferrets.

Using only the finest ingredients like high quality proteins and garden fresh fruits and vegetables, we have set the standard in our commitment to the health and well-being of your pets. This simple premise has been the Stewart® philosophy for over 40 years.

Fresh

Designed by nature, improved by Stewart!

Our commitment to your pets has led us to provide fresh, wholesome, pure ingredients in innovative diets that maintain the natural uniqueness and integrity of what nature intended. Whether you have a puppy, an adult or a senior in your life, we offer complete and balanced nutrition with the widely recognized benefits of a raw diet.

Stewart® foods and treats are proudly made in the United States and use only human-grade ingredients manufactured in a USDA inspected and approved facility. We take the health and safety of your pet family as seriously as we do our own. Your trust is important to us.

Stewart diets are the best you can provide for your pets; and our treats are awesome, too!

Natural

Imagine a dinner party where the menu of beef, chicken and lamb is complemented with fresh broccoli, carrots, apples, blueberries and more! Not only would it satisfy your hunger, but it would also keep you healthy and appeal to your taste buds. Our diets provide the same benefits for your pets. Consider the range of premium human-grade ingredients that go into Stewart® foods and treats.

- Apples – high in Vitamin C
- Beef – excellent, complete protein source
- Blueberries – powerful antioxidant
- Broccoli – high in Vitamin C, calcium and soluble fiber
- Carrots – full of carotenoids for eye, skin and heart health
- Chicken – highly digestible, lean protein
- Cranberries – powerful antioxidant
- Garlic – powerful antioxidant
- Ginger – naturally calms upset stomachs
- Grass-Fed Bison – low fat, low cholesterol protein source
- Ground Bone – excellent source of minerals, essential fatty acids, proteins and enzymes
- Inulin – a prebiotic that stimulates growth of probiotics in the digestive system
- Kelp – rich in organic minerals and iodine
- Lamb – highly digestible, complete meat protein
- Parsley – antioxidants and vitamins
- Romaine Lettuce – excellent vitamin source
- Salmon – high in Omega fatty acids
- Turkey – highly digestible, lean, complete protein

Welcome to the Stewart dinner table; you and your pets are family now.

Ingredients

Food Safety

Top quality and safety for your peace of mind! We go to great lengths to ensure quality ingredients and complete safety. Stewart® Raw Naturals diets are cold process pasteurized in a human-grade, USDA inspected and approved facility using High Pressure Processing (HPP). HPP does not damage or destroy the protein (amino acids) of the meat like traditional heat processing.

HPP uses cold water under very high pressure to destroy micro-organisms that cause spoilage and eliminates the need for chemical preservatives. Additionally, this non-thermal pasteurization process inactivates the growth and function of harmful bacteria such as salmonella, listeria and E.coli.

To ensure absolute safety, all of our products are produced following a strict 6 step protocol:

- HACCP – Hazard Analysis Critical Control Practices
- GMP – Good Manufacturing Practices
- TQC – Total Quality Control
- SSOP – Standard Sanitation Operating Procedures
- PREOP – Pre-Operational Inspections
- PIP – Planned Improvement Program
- SQF Level 2 Certified Plant

Additional measures taken to ensure the safety of our products include 3rd party food safety audits and testing to ensure nutritional integrity and food safety.

Assurance

From our family to yours. Stewart® is 100% committed to the health and safety of your four-legged family members.

Raw Diet Benefits

Diet is the foundation of health. Raw diets contain higher levels of nutrients including essential fatty acids, vitamins, minerals, enzymes and antioxidants which are available to your pet as building blocks to help maintain health and wellness.

Our raw food diets are nutritionally dense and without fillers which allows the body to utilize and absorb more of these nutrients. Higher nutrient absorption means less elimination through stool.

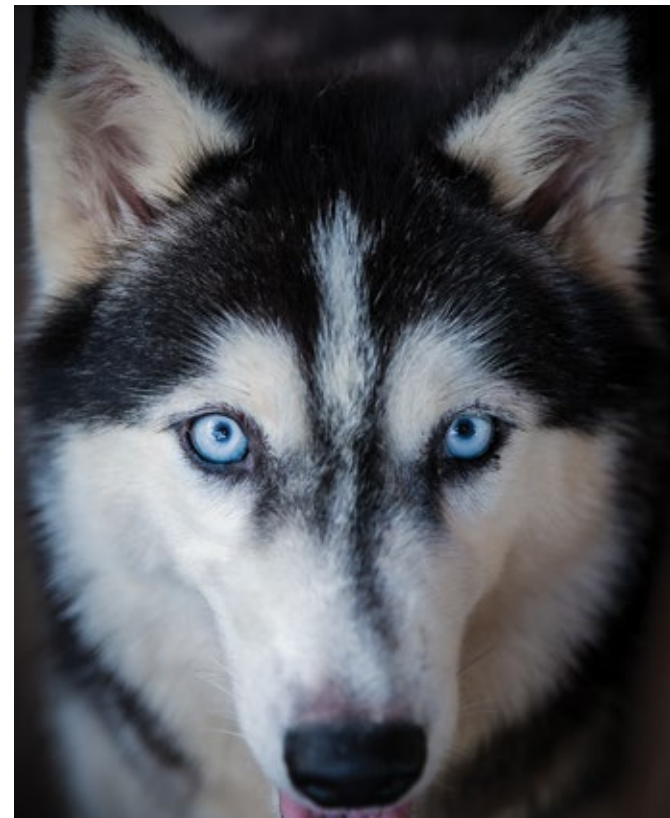

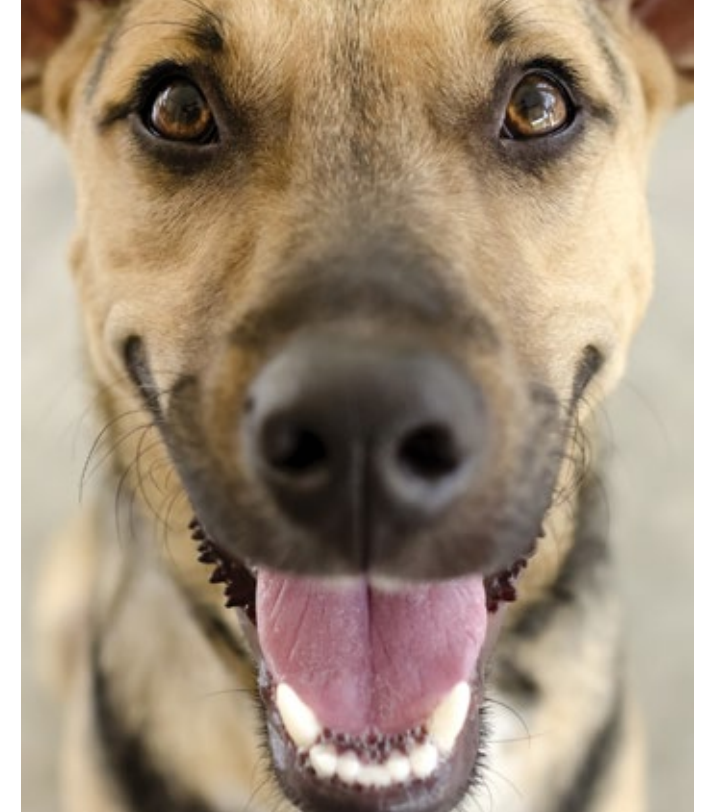

Benefits of a Stewart® raw diet are evident whether feeding alone as a complete and balanced diet, or mixing with kibble to enhance the enjoyment of a meal. Benefits include...

- Food Sensitivities – our recipe is grain, gluten and potato free. It is also a single source, or limited source premium quality protein, perfect for rotation diets and may be the right choice for sensitive dogs with allergies.
- Oral Care – raw meat diets provide high levels of beneficial enzyme and amino acids which help reduce plaque and tartar resulting in cleaner teeth and fresher breath.
- Skin and Coat – the balance of Omega 3 and Omega 6 essential fatty acids from salmon oil and flaxseed helps promote healthy skin and coat which can help reduce normal shedding.
- Mobility and Joint Support – glucosamine and chondroitin are naturally occurring within a raw diet and help support joint function and mobility.
- Health and Wellness – antioxidant and vitamin rich berries and vegetables help support immune and cardiovascular systems.

- Chicken & Salmon Recipe – available in 3.50 oz. and 12 oz. nuggets
- Puppy Formula – available in 3.75 oz. and 12 oz. nuggets

Feeding

By feeding Stewart® Raw Diets you are providing only all-natural ingredients in their purest form. Raw Naturals are not over-processed or cooked, which reduces or eliminates the natural nutrients. Even if your dog looks good now, in 2 to 4 weeks you will see an improvement from transitioning to a raw diet.

When transitioning to a raw diet, start by replacing 1/4 of your pet's current food with Stewart Raw Naturals and gradually increase the portion over the next 14 days until you have completely eliminated the original diet.

Our convenient patties are ready to serve in pre-measured portions. To serve the Freeze-Dried diets, crumble the patty and feed as is or moisten (recommended) with 4 tablespoons of warm water per patty and wait 3-5 minutes before serving. Remember to always have a bowl of fresh water available for your pet.

Remember to keep raw food separate from other foods. Wash working surfaces, utensils, hands and you pet's food bowl after each feeding with hot soapy water. Discard uneaten portions within 30 minutes of serving.

Feed

Clean

Beef Recipe

Our Fresh To Home Beef Recipe is a perennial favorite. Beef is a complete protein containing all essential amino acids, and with the addition of fresh fruits and vegetables you know your pet is getting the best food available.

Ingredients:

Frozen

Stewart® Raw Naturals Frozen Recipes provide complete and balanced nutrition for every stage of your dog's life. Prepared with whole meat single source or limited source protein, fruits, vegetables and other natural ingredients; our raw diets contain higher levels of nutrients including essential fatty acids, vitamins, minerals, enzymes and antioxidants to help your pet develop and maintain a healthy digestive system and proper weight.

We only use human grade ingredients, produced in the USA and made in a USDA inspected and approved facility using cold pasteurization processing. Traditional heat processing destroys enzymes and reduces the nutritional value of otherwise wholesome food. Our raw diet uses High Pressure Processing (HPP), a cold processing technique to maintain the foods' original nutritional value.

Stewart Raw Naturals Frozen Recipes are available in 5 flavor varieties and 5 portion sizes to satisfy any dog's palette and size. Flavor varieties include Beef, Bison, Chicken, Turkey, and Lamb. Individual portion sizes include .2 oz. bite size, .8 oz., 1 oz., 2 oz. and 4 oz.. Package sizes are available in 4 oz., 3 lb and 5 lb resealable pouches.

Raw Ground Frozen Beef Bones. Our unique, patent pending, frozen treats are ground and formed into sticks providing a refreshing, safer alternative to whole bones which can splinter and injure mouths.

Contact your MiracleCorp sales representative for additional information on Stewart® Raw Naturals frozen program.

Treat?

Did your dog's ears just perk up? Of course they did; even from a sound sleep that word is music to any pet's ears. Ensure you're treating them right with Stewart® Freeze-Dried Pro-Treats!

Freeze-Dried Treats

We know it's more than just a 'treat' when it comes to your family members; it's fun, fond memories and enduring love. That's why Stewart® is the brand of choice for you.

Stewart originated Freeze-Dried treats in the United States in 1973. Our long history of innovation, experience and quality is your assurance of safe, nutritional treats with unsurpassed palatability. Freeze drying retains all the flavor and nutritional value of the whole food source. Beneficial enzymes, vitamins and amino acids are not 'heated out' during processing as with dehydrated and cooked products.

Using only the best ingredients like 100% pure liver, antioxidant rich fruits and vegetables and Omega 3 and 6 rich flaxseed, we have set the standard for treating your best friend. Plus it's the perfect complement to our Stewart diets. We guarantee your pet will absolutely love our treats, or your money back!

Only One Ingredient... 100% Pure Liver

Liver is a nutritional powerhouse! A nutrient-rich organ meat, liver is an excellent source of lean protein; Vitamins A, B6, B12, C, D, E, K, Riboflavin and Niacin; minerals such as Calcium, Phosphorus, Potassium, Iron, Zinc and Copper; and essential amino acids such as DHA and EPA. Plus, liver is low in fat and carbohydrates. So much benefit in such a small package!

As a single ingredient treat, Pro-Treat Liver Treats are also perfect for dogs with allergies or who are on a limited ingredient diet. There are no additives or preservatives in our Pro-Treats. The enticing aroma and full liver flavor will keep dogs coming back for more.

Stewart® only uses human grade liver that is raised in the United States. Our production facility is a USDA inspected and approved plant ensuring the quality of each and every batch. We take fresh, raw liver then freeze dry it, dice it into convenient reward sized treats and pack it in a resealable plastic tub. Great for storage at home and easy to pack for a trip. Pro-Treat Liver Treats have been the preferred choice of dog trainers and pet parents for over 40 years.

USA Raised

Stewart Pro-Treat® The ORIGINAL Training Treat Since 1973

Stewart® Pro-Treat Liver Treats are available in a variety of flavors and sizes to fit your needs.

Single Ingredient Muscle Meat

Wild caught Alaskan salmon is an excellent source of protein, healthy fats and amino acids. These nutrients are key to your dog's overall health including skin, joint and brain health, as well as immune system support. So many benefits from one single ingredient and it is a delicious, mouth-watering treat as well!

Chicken is a great source of lean, low fat protein which lends itself to muscle growth and development and helps support a healthy body weight. Chicken breast is an excellent source of Calcium, Phosphorus, Potassium, Niacin, Vitamin B6, Iron, Zinc and Selenium. Plus, chicken breast is low in fat and has zero carbohydrates.

As single ingredient treats, Pro-Treat® freeze dried treats are also perfect for dogs with allergies or who are on a limited ingredient diet.

Exclusive Retail Store Packaging Pouch

We understand the challenges that a store faces when it comes to product placement. With space being at a premium, you need package options to suit a number of display possibilities. Our exclusive retail store pouch program is designed as a channel differentiation for brick and mortar stores. We have packaged our most popular Pro-Treat® items in a trendy, eye catching pouch that offers the product to be displayed either pegged, or on the shelf.

Our pouched treats have the same quality ingredients that are available in our tubs, but created exclusively to provide placement options in a retail setting. Of course, our iconic tubs are still available to those who choose to keep it old school, but now you have options!

The Pro-Treat pouch program is intended for brick and mortar stores only.

Stewart Pro-Treat® Pouch Program

100% Pure Liver

Single Ingredient Muscle Meat

100% Real Cheddar Cheese

Pro-Treat® pouched treats are available in a variety of flavors and sizes.

- 100% Pure Beef Liver – available in 4 oz. and 12 oz.
- 100% Pure Chicken Liver – available in 3 oz. and 11.5 oz.
- 100% Pure Turkey Liver – available in 3 oz.
- 100% Pure Lamb Liver – available in 3 oz.
- 100% Pure Chicken Breast – available in 3 oz. and 11.5 oz.
- 100% Pure Wild Salmon – available in 2.4 oz. and 8 oz.
- 100% Real, Reduced Fat Cheddar Cheese – available in 4 oz. and 12 oz.

Raw Naturals™ Treats

Pro-Treat Raw Naturals Treats combine the goodness of whole meats, vegetables and fruits into a healthy, all natural treat that dogs are certain to love! We only use the best human grade ingredients at the peak of freshness and never use fillers or artificial ingredients. All ingredients are carefully selected, blended and Freeze-Dried, locking in the nutrition of a raw dog treat with the convenience of dried.

Pro-Treats Raw Naturals are available in three varieties in a 4 oz. resealable pouch.

- Real Beef Recipe with berries and flaxseed plus other fresh fruits and vegetables such as broccoli, salmon oil, blueberries, ginger and parsley.
- Real Chicken Recipe with berries and flaxseed plus broccoli, eggs, cantaloupe, salmon oil, kelp meal and rosemary.
- Real Turkey Recipe with berries and flaxseed plus cranberries, blueberries, broccoli, salmon oil, garlic and ginger.

As always, our treats are made in the USA in a USDA inspected and approved facility. You can be confident you are providing your pet with the most nutritious, delicious treats available.

Wholesome

OBEY[®]

Because they will do anything
for a Stewart[®] treat!

Pro-Treat OBEY[®] treats with SavorCoat[™] deliver the great taste of chicken and chicken liver that dogs of all ages love. Our special CleanCarry[™] crumb-free, non-greasy surface makes them ideal for carrying in your pocket without the mess associated with other types of training treats. Perfect as a reward while housebreaking, obedience training, or just when you're out for a walk.

ObeY training treats are veterinary formulated, low calorie treats designed for use as part of any training program. Because of their small size and QuickCrunch[™] construction, they're ideal for the young teeth of puppies as well as the sensitive teeth of older dogs. OBEY Training Treats are available in two sizes, one for small dogs and one for medium to large dogs. Chicken/chicken liver flavor in a 7.5 oz. resealable pouch.

As with all our Pro-Treat products, OBEY is produced and packaged in the USA.

Functional Treats

Just because your best friend is on a special diet doesn't mean he can't enjoy a special treat too! Stewart® Functional Treats were developed by an innovative veterinarian in response to just such a need. As concerned pet parents ourselves, we understand this desire and have been providing treats in support of therapeutic diets for decades.

Functional Biscuits:

Stewart Fiber Formula® Dog Biscuits are designed to complement diets for...

- Weight Control - with high fiber 20%, low fat 3.5% and low calories 24.7 per biscuit.
- Diabetic Dogs - contains no simple sugars.
- Gastrointestinal Concerns - contains fermentable fibers (Fructooligosaccharides), soluble and insoluble fiber.
- Low Sodium Requirements – contains no added salt, contains only the sodium that occurs naturally in the ingredients.

Stewart Lamb and Rice Formula Dog Biscuits are specially formulated to complement diets for your pets with food allergies or sensitivities. With gluten-free, hypoallergenic rice and real lamb meat, your dog will love the taste of these healthy treats.

Hypoallergenic protein (10%) provided by rice and lamb meat; wheat gluten-free provided by rice and barley. Contains no animal by-products.

Both flavor varieties available in a 1 lb. 10 oz. resealable bag.

All Stewart Treats are proudly made in the USA.

Flavor Enhancer:

Do you have a picky eater or a pet refusing to eat? Cats and dogs can refuse to eat for many reasons such as; the stress of being kenneled, traveling, having to eat medicated meals, recent illness or surgery, or even just switching food types. Your pet not eating can be stressful on you and them, making the problem even worse.

Stewart® Flavor Enhancer was made to help entice your pet to eat. Made with 100% Pure Beef Liver or 100% Pure Chicken Liver, and no artificial preservatives, your pet will be begging for food in no time. Simply sprinkle over your pet's food to add a strong, delectable taste that will encourage your pet to eat in any situation.

Available in Beef Liver and Chicken Liver varieties in a 1.75 oz. sprinkle dispenser.

Treats

Of course you love them!
 Show that love with treats by
 Stewart. The taste cats can't
 resist!

Cat & Ferret Treats

Stewart® Fiber Formula® Cat Treats provide a supplemental fiber source for cats to help eliminate hairballs. Low in fat and calories, they are also perfect for cats on weight-control programs, sodium-restricted diets, and fat-restricted diets.

Available in Ocean Fish flavor (2.1 oz. pouch).

With today's increased focus on whole, natural products, Pro-Treat Freeze-Dried Ferret Treats stand above the rest. Our ferret treats contain only ONE ingredient, 100% pure liver, which means they are grain, gluten and preservative free. Pro-Treat Ferret Treats are a delicious reward that pet owners can feel good about!

Available in 2 varieties - 100% Pure Chicken Liver or 100% Pure Turkey Liver (.45 oz. pouch).
